

YOU'RE INVITED: IT & CYBERSECURITY LEADERS

LEVEL UP YOUR CYBER GAME: EXECUTIVE EDITION

Venue:

**Ottawa Mill Street Brew Pub, 555
Wellington Street, Ottawa ON K1R 1C5**

Date:

Wednesday, September 17, 2025

Time:

10:00AM – 4:00PM

Join Ottawa's top IT and Cybersecurity leaders for an immersive day of learning, expert insights, and strategic networking! This exclusive event brings together industry innovators to tackle today's most pressing security challenges while building tomorrow's defense strategies.

Support a Great Cause: While this event is free to attend, we will be collecting optional donations in support of the Children's Hospital of Eastern Ontario (CHEO). Your contribution will help provide care and support to children and families in our community.

EXCLUSIVE OPPORTUNITY – Limited to 20 Seats!

🕒 10:15AM – 12:15PM

Tabletop Exercise (TTX) – Advanced Cyber Crisis

Only 20 executive seats are available for this intensive, scenario-driven experience that puts your leadership skills to the ultimate test. Led by Malleum experts, this hands-on simulation recreates real-world cyber emergencies tailored specifically to the federal government's risk profile. Walk through ransomware scenarios, insider threats, and supply chain compromises while testing your team's coordination, decision-making, and crisis management capabilities. This isn't just training – it's your competitive advantage in an increasingly dangerous cyber landscape.

EXPERT-LED SEMINARS

🕒 12:30PM – 1:30 PM

ZTNA 101: Cloudflare Implementation

Deep dive into Zero Trust Network Access with hands-on guidance from certified Cloudflare experts. Learn how organizations are successfully adopting ZTNA frameworks and discover practical implementation strategies that replace legacy VPNs with identity-aware, application-specific access controls.

🕒 1:45PM – 2:45PM

DDoS Protection: Defending Against 2025's Evolving Threats

With DDoS attacks surging and maximum attack sizes reaching 7.3 terabits per second (Tbps), our cybersecurity specialists will reveal cutting-edge mitigation strategies. Explore AI-driven protection methods and hybrid solutions that combine cloud scalability with on-premise responsiveness.

🕒 3:00PM – 4:00PM

Social Engineering: Recognition & Response in 2025

Malleum social engineering practitioners will unveil the latest manipulation techniques and defense strategies. Understand how social engineering attacks succeed and how your organization can build a resilient, vigilant culture to counter them. Discover how to transform your workforce from targets into cyber-defenders.
